EXPERIENCE

IT SUPPORT, JOMO KENYATTA UNIVERSITY (ISS) MAY 2021- AUGUST 2021

Computer Maintenance and troubleshooting, Windows server administration, Network Administration, Configuring Network devices i.e. Printers, IP telephones, IP cameras.

Network Technician, Horizon Offices

November 2023-April 2024

Part-time role setting up Network systems i.e. Running LAN, Termination of cables, connecting network devices such as IP camera’s, Network Printers. Super-Visor Mr. Kelvin Nderitu- 0710363256

AI Agent Engineer, SoulCode (Remote)

August 2025-September 2025

Backend Engineer for the No Code Platform (<https://www.soulcode.com/>). Building Multi-Agent systems in LangGraph.js (freelance DevOps on Upwork).

EDUCATION

Jomo Kenyatta University of Agriculture and Technology Jan 2020 – June 2022
• **Diploma in Information Technology (Credit)**

CERTIFICATIONS

Certified Cyber Security Analyst **October 2024**
By CyberWarfare Labs
API Security Fundamentals **October 2024**
By APISEC University

PROJECTS

Data Science (<https://github.com/ALLann123/Data-Science>) **June 2025**
Using pandas, numpy, Matplotlib and streamlit. Project one: web scraping data from the internet using pandas. Project two: data visualizations using pandas, Matplotlib and also streamlit. Project four: Data cleaning

AI Projects (<https://github.com/ALLann123/AI-Projects>) **May 2025**
One is an A Langchain Agent with tools, another is an AI image classifier (Tensor flow, OpenCV2 and streamlit), CV critique using Langchain, and finally, a motion detection system using OpenCV2.

Agent-SSH (<https://medium.com/p/e7f52bd63725>) **July 2025**
LangGraph Agent with secure shell access to Kali Linux allowing it to execute system commands, run Kali Tools and also solve capture the Flag Challenges. Can be used in IT support to manage and troubleshoot networks.

Multi-Agent System (<https://github.com/ALLann123/Multi-Agent-Workflows>) **June 2025**
Workflow: two Agents having a tool i.e. DNS resolver and the other agent port scanning. Workflow 2: Supervisor Agent to manage and delegate tasks to other four agents. Finally, Email Assistant Agent.

PC-Admin Agent (Reason and Act) **August 2025**
https://github.com/ALLann123/LangGraph/blob/main/ReAct_Agent/excersise_reAct.ipynb

To-do App (<https://github.com/ALLann123/ToDoApp-NodeJs>) **August 2025**
Learning CRUD operations. Used Node JS to perform this operations and the frontend HTML-CSS-JS.

Meme App (https://github.com/ALLann123/meme_webapp) **April 2025**

Web Enumeration Script (<https://github.com/ALLann123/Web-Enumeration>) **November 2024**
Automated web enumeration in Bash to perform web-enumerations

Technical Blog Author (<https://medium.com/@karisallan237>)
Author on Medium writing Gen AI, CTF walkthroughs and Ethical Hacking.

SKILLS AND TECHNOLOGY

Technical Skills: Penetration testing, Data Analysis, Generative AI, Web Development, Computer Networking, Linux Administration, Scripting (PowerShell, Bash&Python), Cloud Computing.

Tools: Power Bi, MySQL, Excel, Tableau, SQLite

Frameworks: Gen AI (Langchain, Langgraph, RAG), Data Science (Pandas, Matplotlib, Numpy, Scikit-learn), Web (NodeJS, Flask, FastAPI), Security (Wireshark, Metasploit, Burp)

Soft skill: Time management, customer service, working under pressure, and group work.
